

Fast, simple, secure remote desktop access for business professionals in media and entertainment.

Get fast high-performance remote access with Splashtop Business. Increase productivity with smooth, secure access to all your company's applications, files and data.

Easily access all your Adobe and other desktop applications anywhere, anytime, from any device

A high performance remote desktop solution

Now business professionals in media and entertainment can enjoy a truly interactive and intuitive remote access experience in real-time with Splashtop. Activities like creating videos, VFX, graphics, animations, and lip sync, developing games, and more can be done remotely and effectively like never before.

Leverage the power of your high-end workstations from your mobile devices, tablets and computers at home. Use licensed applications remotely without re-engineering, as if you were sitting right in front of them.

Key Features and Benefits

- **High Performance** - Get [4K streaming at 40fps](#) and iMac Pro Retina 5K streaming at low latency. Reduced CPU utilization provides more headroom to process applications. Settings can be fine-tuned to get optimal performance. Optimized encoding and decoding engine takes advantage of the latest hardware acceleration from Intel, NVIDIA, AMD.
- **Multi-monitor Support** - Remote into multiple monitors connected to your workstations.
- **Broad Device Support** - Remote into your Mac, Windows or Linux computer from any Mac, Windows, iOS, Android, or Chromebook device.
- **SSO Integration (upgrade to [Splashtop Enterprise](#))** - Easy, secured and centralized authentication. Integrations with all [major identity providers](#).
- **Centralized Admin Console** - IT admins can easily deploy and manage employees' remote access to computers.
- **Secure Connections** - Get secure infrastructure, intrusion protection, SSL/AES 256 bit encryption and other [advanced security features](#).
- **Increased User Productivity** - Intuitive gestures and menu interface delivers a native application experience. Customizable shortcuts allow easy access to application features. Whiteboard allows users to annotate over content. Get file transfer, remote print and other in-session features.
